2. PURCHASE PLAN

NEW PROGRAM PLAN

When you buy a shared plan, the class units are stored in a Program, with a Name and a Code.

- Program Name describes the intended users of these class units (often it is a department, college, or set of courses).
- Program Code (6 digits) provides some security—you will need to distribute the code to instructors. The instructor enters the code when they create a new class. (You may change the as needed to prevent unauthorized use.)

Plans can be purchased for regular or small sized classes.

- Regular Plan classes cost 1 class unit per class: if it exceeds 100 students, a 2nd unit is charged.
- Seminar Plans support classes of 18 or fewer students, for 30% off Regular price. If a Seminar Class exceeds 18 students, a 2nd unit is charged.
